Dear Valued Customer:

In-keeping with the Interim Tariff Determination 2019 granted by the OUR, effective May 2022 there will be an increase in the Water, Sewerage and Service Charge Rates and Miscellaneous Fees, charged by the NWC for its services.

The adjustment in the rates is due to the re-setting of the Base Rates of the components used in the calculation of the Price Adjustment Mechanism (PAM). Please note the K-Factor and X-factor values will remain unchanged at 20% and -5% respectively.

We thank you for your support and we look forward to the continuation of quality service delivery to you our valued customer.
